Summary

Full-Stack Developer with hands-on experience building, scaling, and deploying web applications using **Ruby on Rails**, **Node.js**, and **PostgreSQL**. Driven by clean code, rapid prototyping, and delivering robust full-stack solutions for real-world products.

Education

Superhero Design + Code School	Kolhapur • FEB 2025 - NOV 2025
Full-Stack Development with Ruby on Rails	
Completed intensive coursework covering full-stack web application development, database architecture, and MVC patterns.	
Vivekanand College, Kolhapur	Higher Secondary Certificate (HSC) – Science
Science, Information Technology	Kolhapur • 2026

Experience

Cognifyz Technologies	Remote
Fullstack Development intern	FEB 2026 - MAR 2026
• Built Responsive Interfaces & APIs: Developed responsive frontend components and designed RESTful APIs using JavaScript, Node.js, and Express for seamless server-client communication. • Database & Authentication Integration: Configured MongoDB databases, integrated secure user authentication systems, and implemented robust client-side form validations.	
Freelance Full-Stack Developer	india
Self-Employed / Independent	2025 – Present
• Shivkumar Realtors (Agency Website): Designed and deployed a responsive real estate platform featuring property listings, dynamic media handling, and client lead-capture workflows. • Tawade Kitchens (E-Commerce Platform): Engineered a full-stack e-commerce web application with interactive product catalogs, cart management, and optimized checkout flows.	

Projects

Mirai (AI Technical Interviewer)	2026
• AI-Driven Mock Interviews: Developed an interactive technical interview assistant designed to simulate real-world engineering reviews and evaluate candidate responses. • Real-Time Integration: Implemented voice integration workflows and optimized model response handling for smooth, low-latency mock interview sessions.	
Full-Stack Blog Application	2026
• Content Architecture & Monetization: Engineered a production-ready publishing platform with secure authentication, threaded comments, and integrated Stripe Payment Gateway for subscriptions and paid content access. • Database Optimization & Webhooks: Designed clean PostgreSQL schemas with optimized query indexing and implemented Stripe webhook handlers to process real-time transaction states.	

Skills

 Languages & Frameworks:	 Databases & Infrastructure:	 AI & Developer Tools:
 Ruby On Rails	 PostgreSQL	 Claude
 React	 MongoDB	 Git
 JavaScript	 RESTful APIs	 AI API Integration

Certifications

Y Combinator Job Simulation - Software Engineering at a Startup Forge Completed practical simulation focused on rapid MVP development, backend architecture, and startup execution.	2026
Full-Stack Ruby on Rails Development Superhero Design + Code School Certificate of Appreciation awarded for outstanding portfolio design and full-stack web application development.	2025
Claude Code in Action & AI Fundamentals Anthropic Trained in leveraging modern AI tools, prompt workflows, and API integrations for rapid software development.	2026
