Summary

Full-Stack Developer with hands-on experience building, scaling, and deploying web applications using **Ruby on Rails, Node.js, and PostgreSQL**. Driven by clean code, rapid prototyping, and delivering robust full-stack solutions for real-world products.

Education

Superhero Design + Code School Full-Stack Development with Ruby on Rails Completed intensive coursework covering full-stack web application development, database architecture, and MVC patterns.	Kolhapur • FEB 2025 - NOV 2025
University of People Computer Science	Bachelors Degree California, United States. • 2026
Modern College of Arts, Science & Commerce Undergraduate Coursework in Computer Science & Applications	Pune, Maharashtra, India • 2026

Experience

Freelance Full-Stack Developer Self-Employed / Independent	india 2025 – Present
• Shivkumar Realtors (Agency Website): Designed and deployed a responsive real estate platform featuring property listings, dynamic media handling, and client lead-capture workflows. • Tawade Kitchens (E-Commerce Platform): Engineered a full-stack e-commerce web application with interactive product catalogs, cart management, and optimized checkout flows.	

Projects

Mirai (AI Technical Interviewer) • AI-Driven Mock Interviews: Developed an interactive technical interview assistant designed to simulate real-world engineering reviews and evaluate candidate responses. • Real-Time Integration: Implemented voice integration workflows and optimized model response handling for smooth, low-latency mock interview sessions.	2026
Full-Stack Blog Application • Content Architecture & Monetization: Engineered a production-ready publishing platform with secure authentication, threaded comments, and integrated Stripe Payment Gateway for subscriptions and paid content access. • Database Optimization & Webhooks: Designed clean PostgreSQL schemas with optimized query indexing and implemented Stripe webhook handlers to process real-time transaction states.	2026

Skills

 Languages & Frameworks:  Ruby On Rails	 Databases & Infrastructure:  PostgreSQL	 AI & Developer Tools:  Claude

Certifications

Y Combinator Job Simulation - Software Engineering at a Startup	2026
Forge	
Completed practical simulation focused on rapid MVP development, backend architecture, and startup execution.	
Full-Stack Ruby on Rails Development	2025
Superhero Design + Code School	
Certificate of Appreciation awarded for outstanding portfolio design and full-stack web application development.	
Claude Code in Action & AI Fundamentals	2026
Anthropic	
Trained in leveraging modern AI tools, prompt workflows, and API integrations for rapid software development.
